

# Telco Global API Alliance – Meeting

05.08.2021

# Agenda

---

**01** Timeline

---

**02** GitHub & participate in the alliance

---

**03** Name the alliance

---

**04** Governance documents and project proposals

---

**05** Practical arrangement of meetings

---

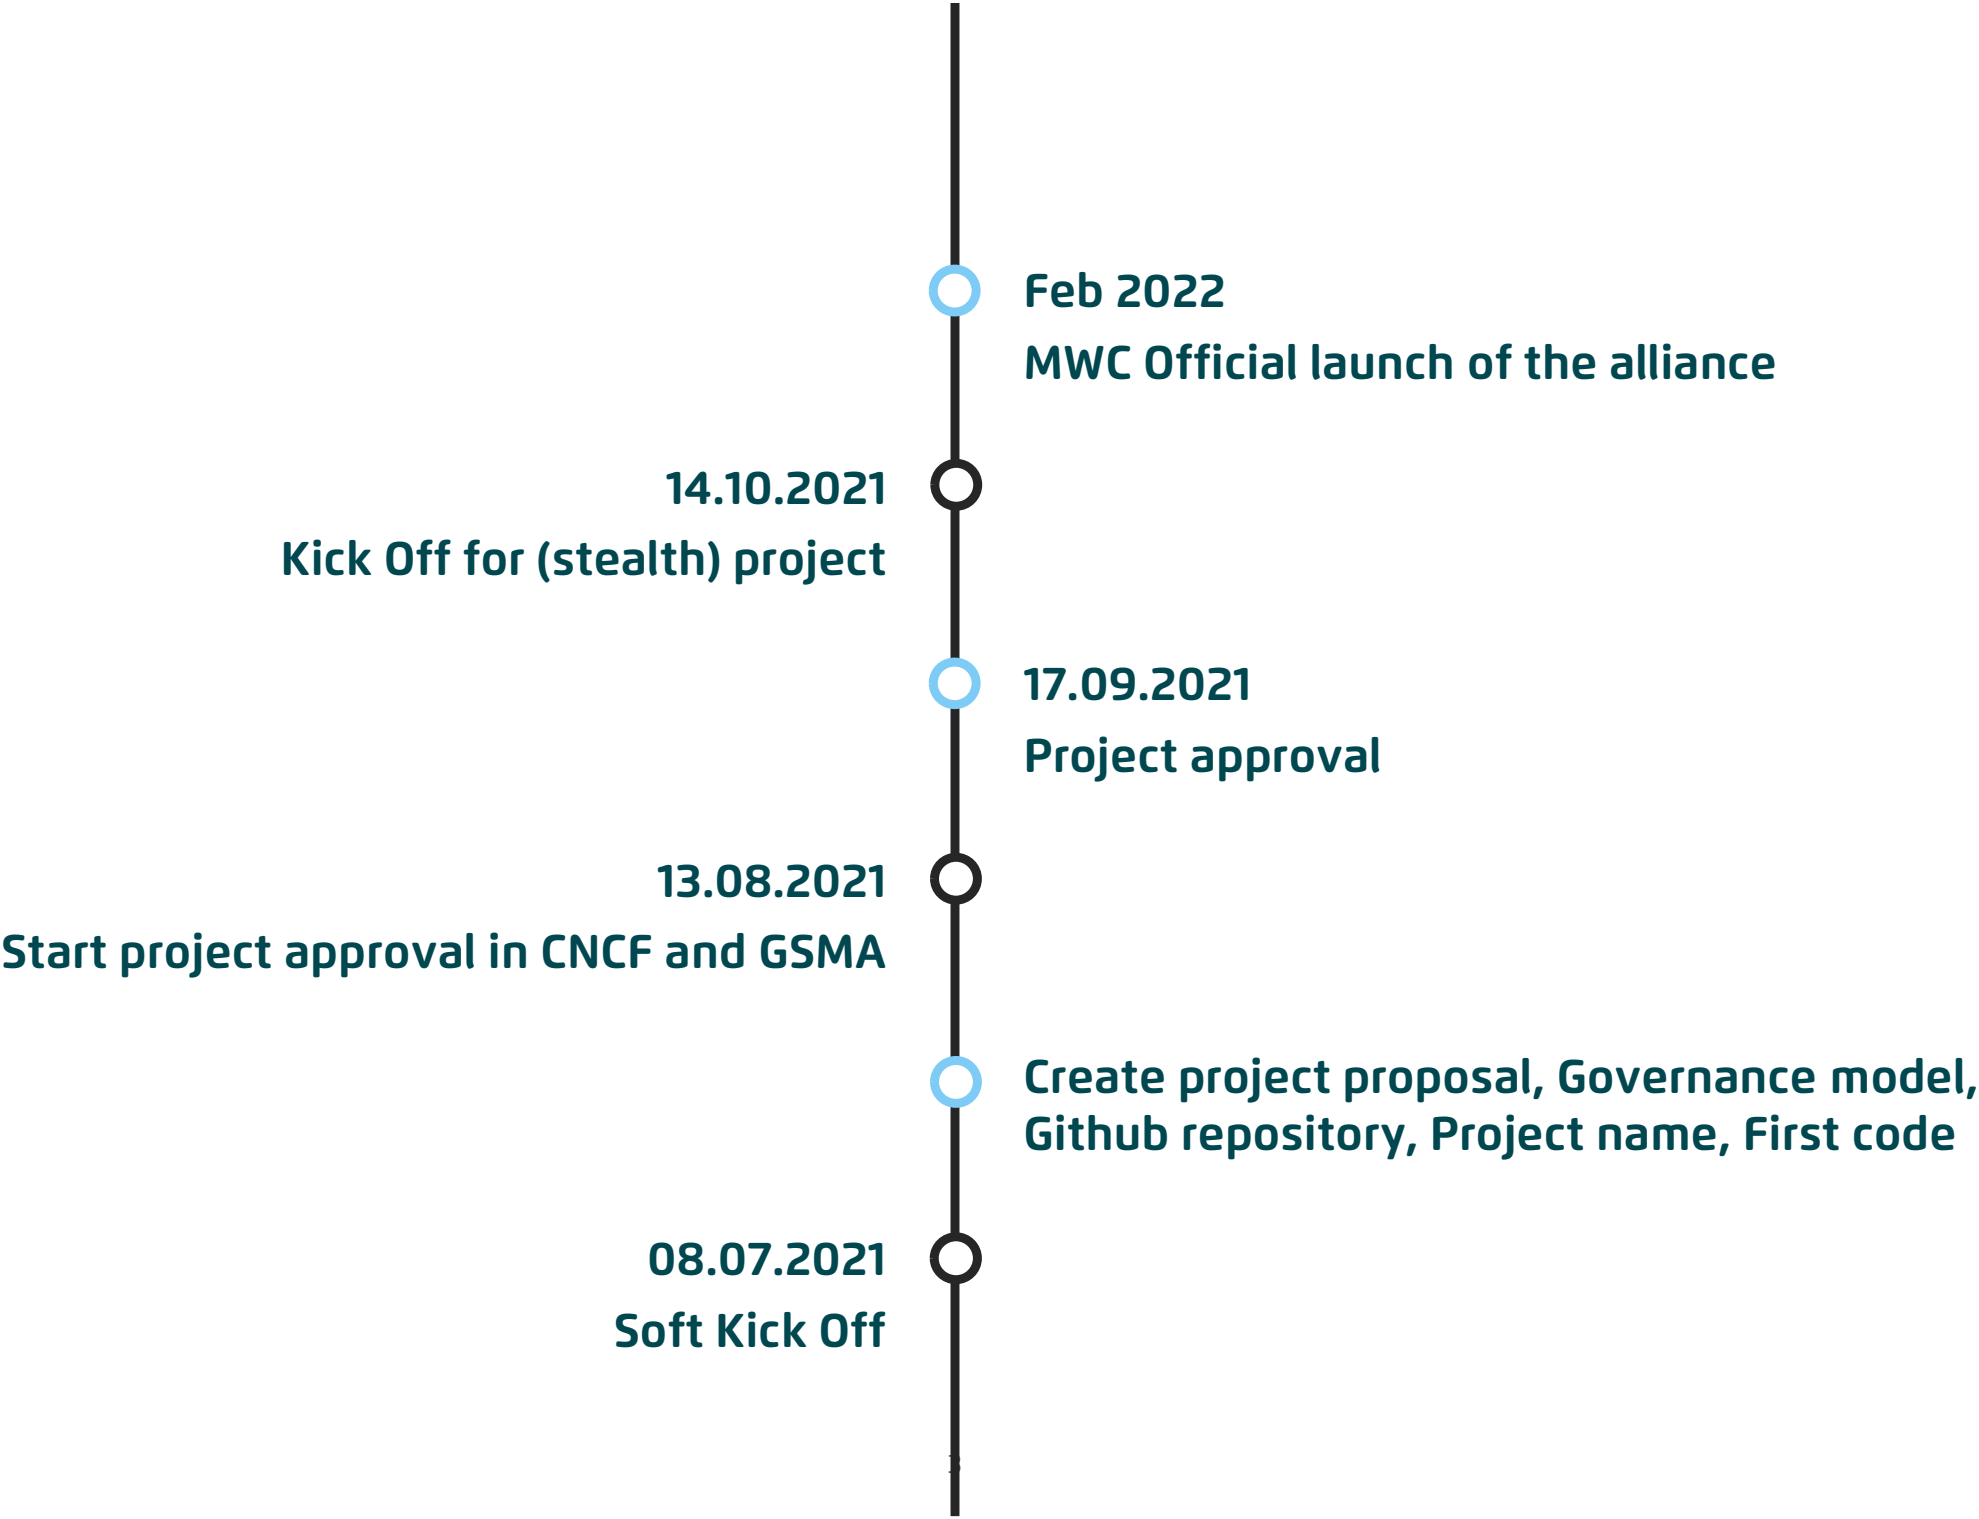

**06** First ideas for API contributions

---

**07** Q&A

---

# Timeline

# DT has created a private Github repository to kick off the project.

Add your name to the repository “[Telco Global API Alliance](#)” to start contributing to the alliance.

(If you need access to GitHub repository send me a short notice)

# First name suggestions for the alliance

Propose a suitable name in `/documentation/MeetingMinutes/AllianceName.md` until our next call.

**NEXALL**

**NEX-O**

Acronym for “Network Exposure Alliance”.

Suggested by

**Camara**

(alt. Kamara)

Greek word for "arched roof", which represents the collaboration or alliance of several entities under one vision. The logo could be an arch or an arched roof.

Suggested by

**<Your proposal>**

**Inspirational Project Names**

Optimistic	Pessimistic
Tiger	Dodo
Panther	Slug
Thor	Mr Bean
Steel	Smoke 'n' Mirrors
Gold	No Hoper
Delivery Plus	Titanic
Bond - James Bond	Moving Forward
Payback 24/7	Doomed
Unrivalled Magnificence	Moving Backward
Exemplar Plus	Sloth
NPV Max	White Elephant
Guiding Light	Best Forgotten
Delivery Plus Plus Extra	Phoenix: Re-Birth XII

# Provide name suggestions for the alliance and vote

# Requested changes for project governance documents

## Changes recommended by CNCF #1

MarkusKuemmerle opened this issue 6 minutes ago · 0 comments

MarkusKuemmerle commented 6 minutes ago

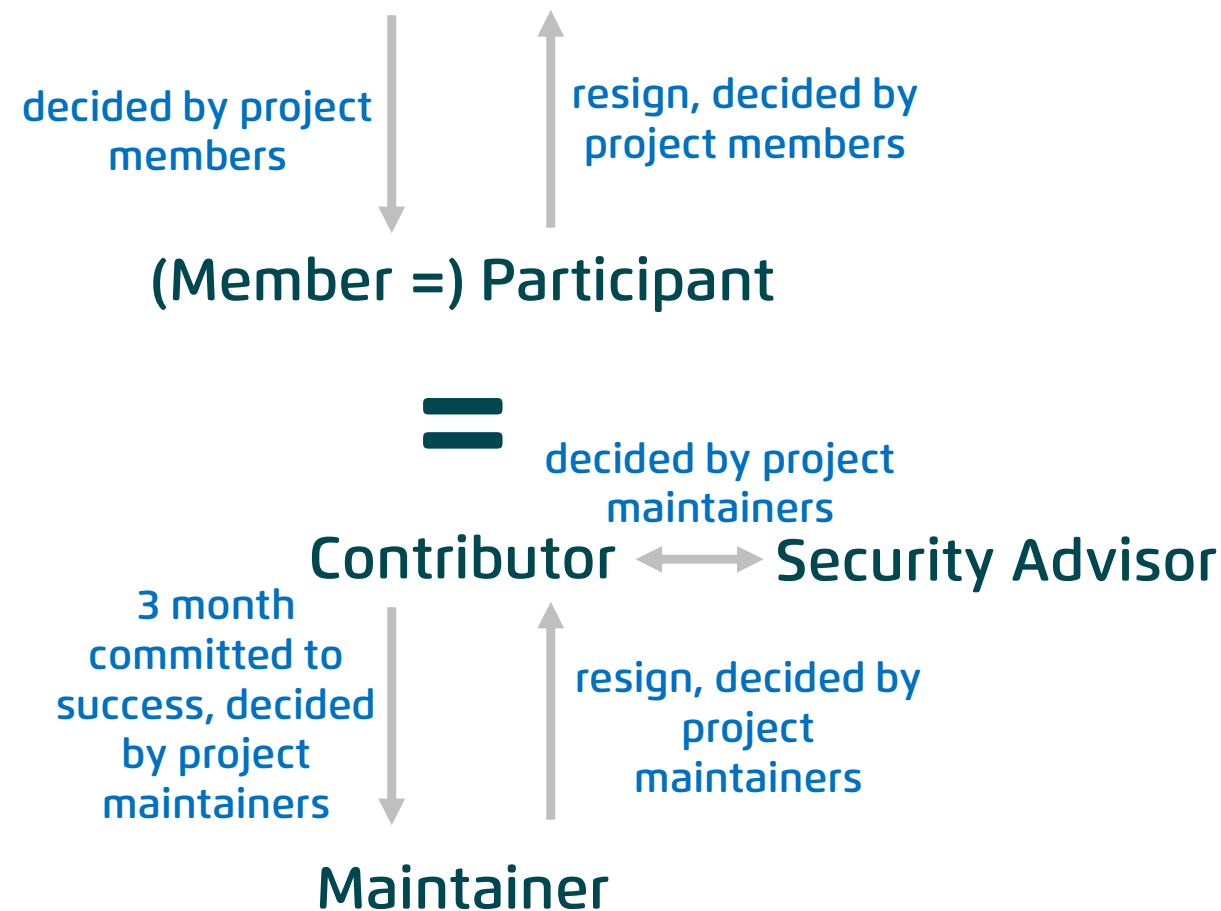

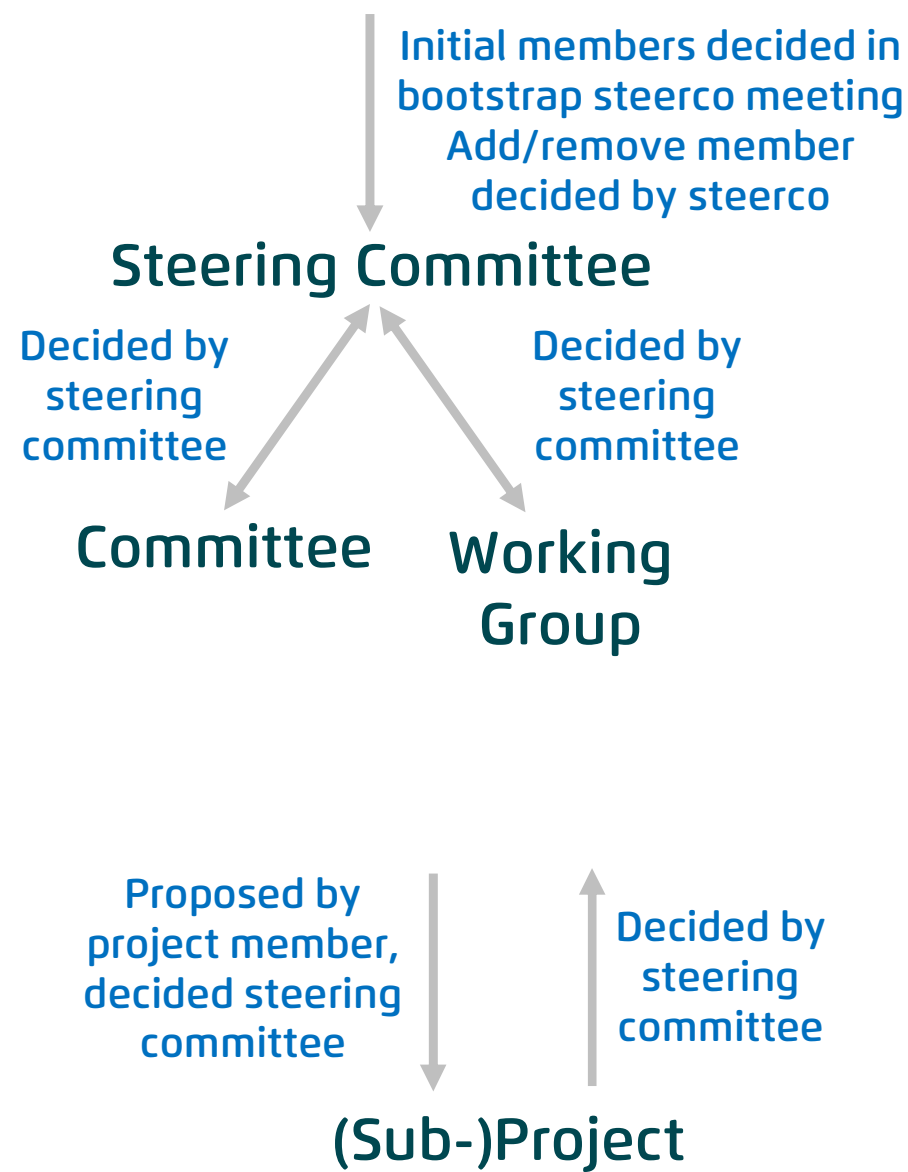

CNCF recommends the following changes for GOVERNANCE.md:

- Split in 2 documents (ProjectCharter.md and ProjectStructureAndRoles.md) to simplify maintenance of the documents
- Use of Linux Foundation **US** as legal home for the project (add IPR section and Policy section)
- Add steering committee description and include description of committees
- Delete decisions about team members (steering committee can set promotion requirements)
- Delete editorial changes (to simplify)

**Decision: Changes are accepted and can be implemented. Partners check if there are (legal) objections concerning the LF US umbrella until our next meeting. Changes are implemented.**

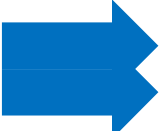

# Requested changes for project charter / structure and roles

Decision: Changes are accepted and can be implemented.  
Changes are implemented.

# New GitHub structure

Review the documents and provide feedback:

- Correct typos and bad grammar immediately in the files
- In case of needed content changes create a GitHub issue

# First ideas for API contributions

9 lines (9 sloc) | 653 Bytes

RawBlame

API family	Partner who intends to contribute	Description of API family
Quality on demand / Network slicing	DT	Set quality for a mobile connection (e.g. required latency, bit rate). Get notification if network cannot fulfill.
Identification		Identification of end user
Billing		Get information about actual cost for API usage
Localization / Geofencing		
Network congestion / Connectivity of end user / Packet loss rate		
Request for Edge location		
Traffic influence		

Insert your ideas in `/APIs/APIBacklog.md`

## Additional agenda point

- E/WBI code to also sit in LF project? All Code in LF/CNCF?

Q&A
